

CodeVault Project Screenshots

01 Login Page

The screenshot shows the login page of the CodeVault application. The browser address bar displays 'localhost:5173/login'. The page features a dark theme with a grid background. On the left, the CodeVault logo is at the top, followed by the tagline 'DSA PERFORMANCE PLATFORM'. Below this is a large heading 'Turn your problem-solving data into better practice.' and a subtext 'Track submissions, identify weak topics and get priority-based DSA problem recommendations.' A code block contains a JavaScript snippet for calculating a priority queue. On the right, the heading 'Welcome back' is followed by the instruction 'Sign in to continue your problem-solving journey.' Below this are input fields for 'Email address' (containing 'you@example.com') and 'Password' (with a placeholder 'Enter your password'). A prominent blue 'Sign in' button is positioned below the password field. At the bottom right, a link 'New to CodeVault? Create an account' is provided.

CodeVault
DSA PERFORMANCE PLATFORM

Turn your problem-solving data into better practice.

Track submissions, identify weak topics and get priority-based DSA problem recommendations.

```
01 topicWeakness * 0.60
02 difficulty * 0.25
03 ratingMatch * 0.15

priority_queue<Recommendation>

02 Register Page

The screenshot shows the registration page of the CodeVault application. The browser address bar displays 'localhost:5173/register'. The page features a dark theme with a grid background. On the left, the CodeVault logo is at the top, followed by the tagline 'BUILD BETTER DSA HABITS'. Below this is a large heading 'Your coding progress deserves more than a solved counter.' and a subtext 'CodeVault connects your submissions, analytics, goals and C++ recommendation engine in one developer dashboard.' Four feature cards are displayed: 'Topic analytics', 'C++ recommendations', 'Goal tracking', and 'Leaderboard'. On the right, the heading 'Create your account' is followed by the instruction 'Start tracking your DSA performance.' Below this are input fields for 'Full name' (containing 'Ayush Chakole'), 'Email address' (containing 'you@example.com'), and 'Password' (with a placeholder 'Create a password'). A prominent blue 'Create account' button is positioned below the password field. At the bottom right, a link 'Already have an account? Sign in' is provided.

CodeVault
BUILD BETTER DSA HABITS

Your coding progress deserves more than a solved counter.

CodeVault connects your submissions, analytics, goals and C++ recommendation engine in one developer dashboard.

- 01 Topic analytics
- 02 C++ recommendations
- 03 Goal tracking
- 04 Leaderboard

Create your account

Start tracking your DSA performance.

03 Dashboard Overview

04 Dashboard Insights

05 Problems Library

The screenshot shows the 'Problems Library' page in the CodeVault application. The left sidebar contains a 'Workspace' menu with links to Dashboard, Problems (active), Recommendations, Goals, Analytics, and Leaderboard. Below the menu is a user profile for 'AYUSH CHAKOLE, DSA Developer' and a 'Logout' button. The main content area is titled 'Explore DSA Problems' and includes a search bar and filters for 'All Difficulties' and 'All Topics'. A badge indicates '8 problems found'. A table lists the following problems:

STATUS	PROBLEM	DIFFICULTY	RATING	TOPICS
○	Two Sum #1	Easy	800	Arrays, Hashing
○	Binary Search #2	Easy	800	Binary Search
○	Climbing Stairs #3	Easy	900	Dynamic Programming
○	House Robber #4	Medium	1200	Arrays, Dynamic Programming
○	Coin Change #5	Medium	1400	Arrays, Dynamic Programming
○	Number of Islands #6	Medium	1300	Arrays, Graphs

06 Recommendations Top

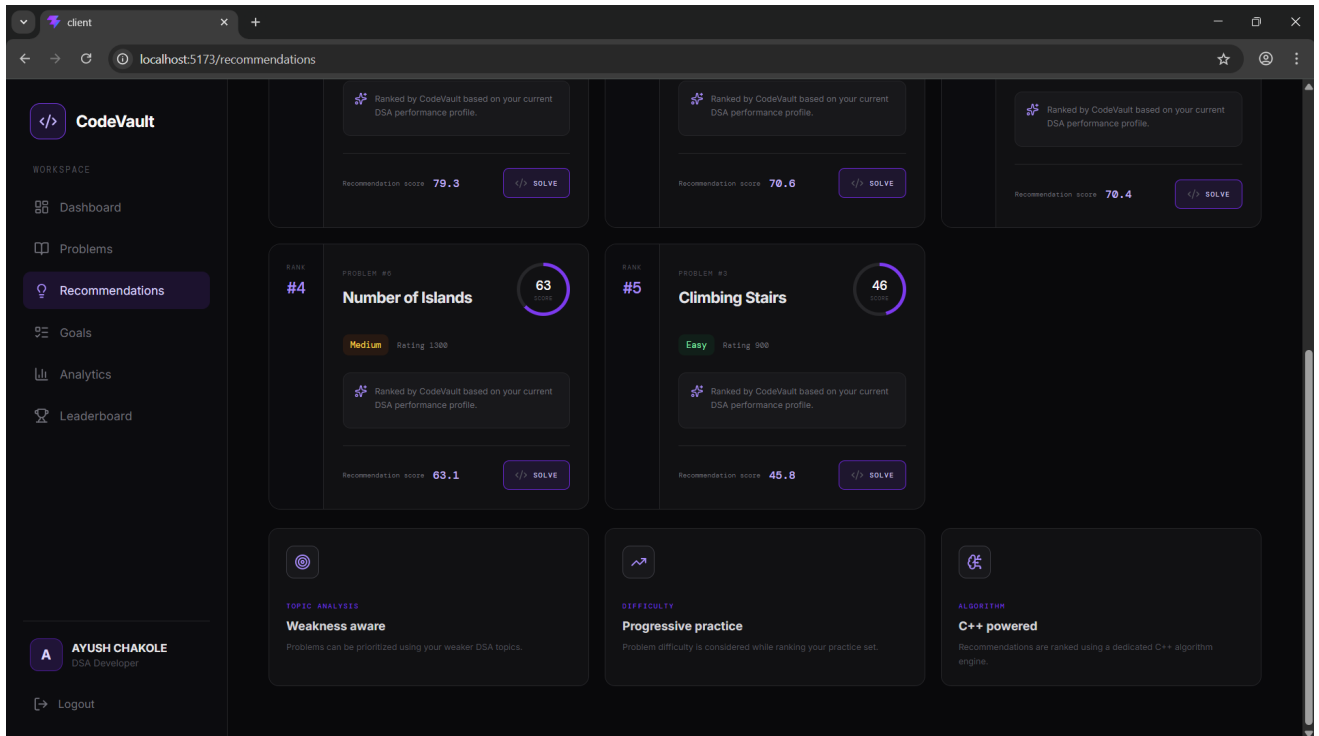

The screenshot shows the 'Recommended for You' page in the CodeVault application. The left sidebar is identical to the previous page. The main content area is titled 'Recommended for You' and includes a 'Refresh' button. A section titled 'C++ RECOMMENDATION ENGINE' states 'Algorithm-driven practice ranking' and 'ENGINE ACTIVE'. Below this, three problem cards are displayed:

RANK	PROBLEM #	PROBLEM NAME	DIFFICULTY	RATING	RECOMMENDATION SCORE	SOLVE
#1	Two Sum	Easy	800	79	79.3	SOLVE
#2	Coin Change	Medium	1400	71	70.6	SOLVE
#3	Longest Increasing Subsequence	Medium	1500	70	70.4	SOLVE

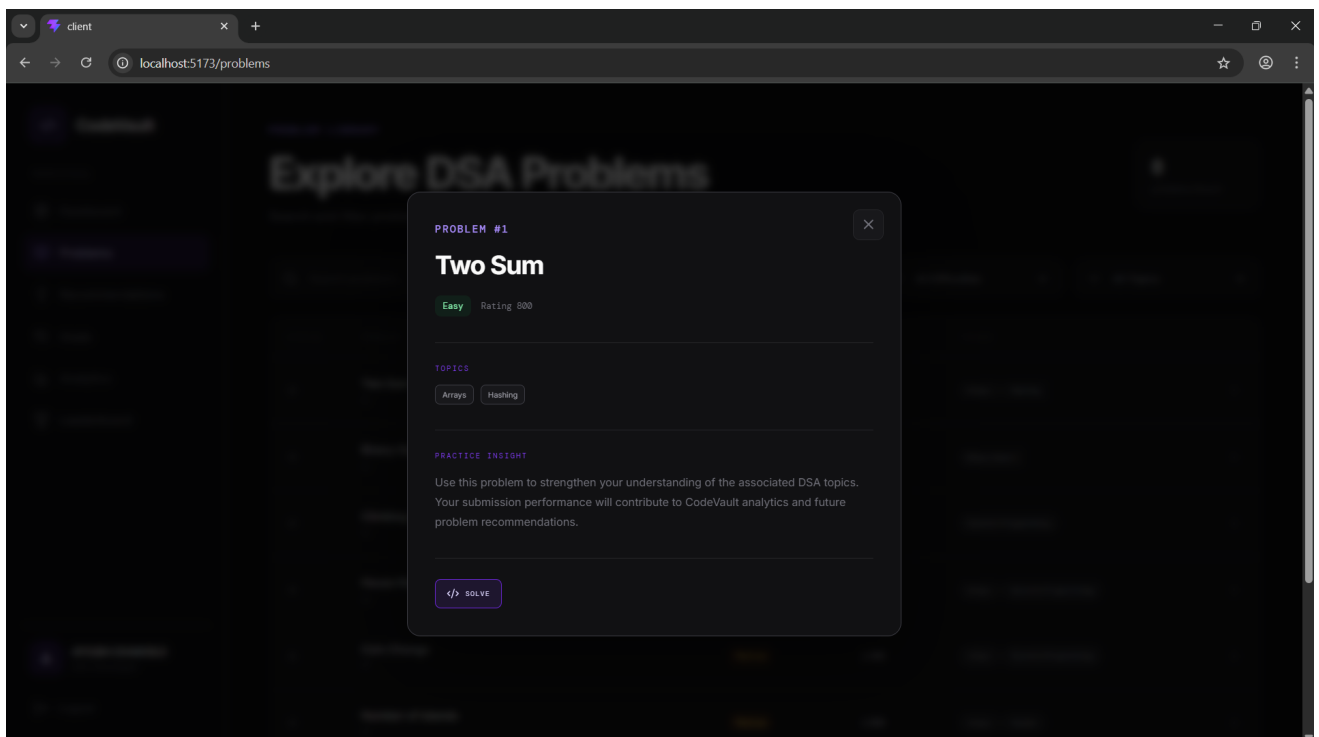

Below these cards, the start of two more cards is visible:

RANK	PROBLEM #	PROBLEM NAME	DIFFICULTY	RATING	RECOMMENDATION SCORE	SOLVE
#4				63		
#5				46
